DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-6 are rejected under 35 U.S.C. 102(b) as being disclosed by Ohtsuki (US Patent 6,036,328).

With respect to claim 1, Ohtsuki teaches a light emitting diode comprising a circuit substrate (Fig. 20(b): 54); an LED (53) mounted on the circuit substrate; a resin layer (Fig. 20(b): 80) encapsulating the LED; and a reflection layer (Fig. 20(b): 91) on the resin layer for reflecting lights emitted from the LED.

With respect to claim 2, Ohtsuki further teaches a lower reflection film (Fig. 1: 54a) on the upper surface of the circuit substrate.

With respect to claim 3, Ohtsuki teaches that the reflection layer is provided for partly transmitting the lights emitted from the LED (Col. 8, lines 30-33).

With respect to claim 4, Ohtsuki further teaches the reflection layer (Fig.14: 91) comprising of a transparent holding plate (Fig 23(a): 80), and an upper reflection film (95) provided between the upper surface of the resin (Fig. 23: 76) and the underside of the holding plate (50).

With respect to claim 5, Ohtsuki further teaches that the upper reflection film is formed by a metal plating (Col. 21, lines 43-49).

With respect to claim 6, Ohtsuki further teaches that the upper reflection layer (Fig. 23: 95) has an area smaller than an area of the resin layer (50)

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Zahra Bennett whose telephone number is 571-272-2267. The examiner can normally be reached on Monday-Friday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Renee Luebke can be reached on 571-272-2009. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
